

The Night Sky

“Nate, would you like to go outside and look at the stars?” asked Dad.

“Yes!” said Nate.

They went outside and looked up at the bright stars high in the sky. “There is the Big Dipper,” said Dad. He showed Nate where to look.

“That is a great sight!” said Nate.

Then Dad showed Nate another light in the sky. “That bright light is not a star,” said Dad. “It is Mars!”

“Wow,” said Nate.

“It looks like a bright star. I would not know it was a planet!”

Then they saw a bright light go across the sky. “That is not Mars or a star,” said Dad. “That is a plane on a flight across the night sky!”
